

The Best Hunting Blinds on the Planet

Redneck Blinds are engineered and designed with everything a hunter needs in a high quality hunting blind. The exterior is composed of molded fiberglass with UV protected gel coat color that won't peel or fade making the blinds virtually maintenance free. The tempered automotive glass windows feature whisper quiet hinges giving the hunter the best advantage when taking that trophy shot. In addition these blinds offer several unique design features to ensure a weather tight finish, along with carpeted floor and walls to make them among the quietest blinds available today.

As Buck Commander Willie Robertson says...

**"There ain't nothing
redneck about these blinds"**

Features

- Made from 100% fiberglass with maintenance free gel coat finish
- 2" roof overhang to keep rain off windows
- Marine carpeted floor & lower walls for comfort & sound control
- Convenient shelves & gun holders
- Large tinted tempered automotive glass windows with whisper quiet window hinges
- Flip-up window design allows for easy cleaning & resists freezing shut
- Automotive window gaskets & molding to keep blind dry and bug free
- Fiberglass bottom prevents rotting & varmint damage
- Rich dark green exterior color with tan splatter
- Seamless design for quietness & scent control
- Submarine style locking door
- 2" screened vents underneath roof overhang
- Blinds are completely assembled
- Made in the USA

"I've hunted out of many different blinds over the years, including home built and store bought. The blind I like more than any other is the Redneck Predator 360 Blind! The vertical windows in each corner allow maximum visibility to constantly watch for deer. They allow me to shoot a gun with a three point rest - something blinds with only horizontal windows rarely allow. I'm 6' tall and Redneck Blinds allow me to stand up and shoot a bow with room to spare! The overall construction, fit and finish, along with the wonderful ladder hand rail, make hunting out of a Redneck Blind safe and comfortable. They are the best hunting blinds I've ever used!"

Redneck 360 Series Blinds... The Ultimate Hunting Blinds

Do you want the Best Bow Blind Available? How about the Best Gun Blind Available? How about the Best Crossbow Blind Available? Think it all can't be done in one blind....wrong, the Buck Palace 360 6X6 Crossover Blind is hands down the best blind on the market whether you are hunting with a gun, bow or crossbow.

The oversized 14" tall horizontal windows and 46" tall vertical windows provide great visibility, and great shot angles for bow, gun and crossbow hunting, giving you that extra advantage when a trophy presents itself.

The 360 Series Blinds are perfect for introducing young children because the vertical windows allow them to make shots at closer deer than they can typically make out of traditional deer blinds with taller windows.

The Redneck 360 Series Blinds are also favorites for hunters that like to film their hunts with plenty of room for all your camera gear, tripods and plenty of windows to film from.

the
PREDATOR
5 x 6 CROSSOVER

"Up until I came across Redneck Blinds I was reluctant to bow hunt out of a box blind. The Buck Palace 360 Crossover and Predator 360 Crossover Blinds are perfect not only for bow hunting out of, but are also favorites of mine during late season muzzleloader hunts. The oversized horizontal windows and tall vertical windows give us maximum shot flexibility while at the same time allowing us to film the hunts with great ease. There are many advantages in regards to scent control and sound and movement control that a Redneck Blind will give you. Redneck Blinds are at the top of the class."

Redneck Blind Sled shown with 5X5 Trophy Tower

"We love our Redneck Blind! I shot this 4 1/2 year old, 13 point, 167 2/8 inch buck at 70 yards out of our Redneck Blind over a clover field on the first day of muzzleloader season. It was especially nice since my dad and I put the blind and stand up together on Labor Day. It was a breeze."

30" Ground Auger Anchor with 3/16" Cable & Turnbuckle

Sturdy Ladder & Platform Rails

Sturdy Non Slip Ladder Steps

- Take concealment & stealth to whole new level with the Redneck Bale Blind
- Natural looking blinds keep you comfortable, dry and completely hidden while hunting, scouting or filming
- Deer, turkey and other wildlife adapt almost immediately to the blinds
- Sturdy aluminum/galvanized frame
- Long lasting cover that is easily removed at end of season for storage
- Easy assembly
- "Silent Slide" window coverings
- Great for gun or archery hunting
- Lightweight for easy moving

"We have been using Redneck Blind Ambition Bale blinds for over 2 years now. The success we have had hunting out of these are simply unbelievable. The first season we took 4 mature bucks from the blinds and this year we are at 3 and counting. What is most amazing is that out of all the bucks we shot on film, not one looked at the Blind before we shot! They have no idea what they are. Redneck Bale Blinds have changed the way we are hunting whitetails and turkeys."

"Having as much land as we do and spending as much time as Tiffany and I do in the field all year long, we want to be comfortable, concealed and have the ability to take our next shot, so we can put another BBD, that is why we believe in and choose to hunt out of Redneck Hunting Blinds. The size and flexibility of the Redneck Buck Palace 360 Blinds allow us to bow hunt, gun hunt and film out of the blinds.

"The Buck Palace Crossover Blind is the Cadillac of all Blinds. It is absolutely ridiculous how perfect it is for bow hunting and crossbow hunting."

Jason Aldean
Country Music Star & Buck Commander
on his Buck Palace Crossover

Powerful motor design re-circulates air at a rate of 110 cubic feet per minute

Convenient electrical cord storage on back of box for easy storage and transportation

Timer with a range of 1 minute to 3 hours

Double wall construction creates strong lightweight box with great insulation characteristics

Recessed handles that allow you to take your ScentMaster to the field

Air flow tube moves air from the motor to the channeled air outlets providing warm, filtered air

Channeled air outlets evenly distribute air through the replaceable activated carbon filter and directly to your clothing

SCENT CONTROL BOX

The ScentMaster does a great job of removing odors from your clothing, drying them out and preparing them for your next hunt. The technology and the application just make sense.

- BILL WINKE, MIDWEST WHITETAIL

We love the ScentMaster because it keeps our clothes warm, dry and scent free. The ScentMaster is a great tool for us in our overall scent control process.

- LEE & TIFFANY LAKOSKY, THE CRUSH

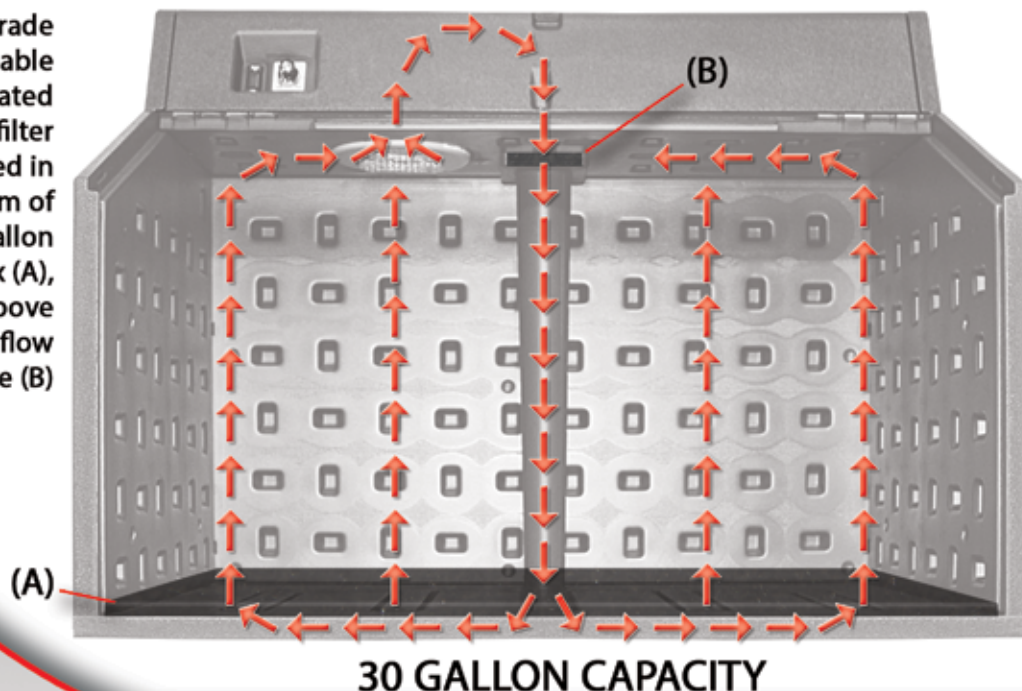

The ScentMaster is a great way to store my clothes and transport them to the field. We all know foreign smells are a limiting factor in hunting success, and ScentMaster is the solution to keeping your hunting clothes scent free.

- DR. GRANT WOODS, GROWING DEER TV

Check out www.RedneckBlinds.com or call 877.523.9986

OPERATIONAL RE-CIRCULATION OF AIR FLOW

High grade replaceable activated carbon filter is placed in bottom of 30 gallon box (A), and above the air flow tube (B)

SCENTMASTER SCENT CONTROL BOX

Changing the Game in Scent Control

Removes Moisture

The # 1 cause of foreign odors in clothing is bacteria that develops from moisture. Your clothes can become damp from both perspiration and outside moisture. The powerful motor in the ScentMaster box re-circulates 130 degree air through the box and your clothing, drying it and removing moisture that can create odor causing bacteria.

Use It For All Your Gear

Put all your gear including hats, boots, release, rangefinder, etc into the ScentMaster for total scent control.

Lightweight And Portable

The ScentMaster box is lightweight with easy carry handles that allow you to take your clothes straight to the field in an odor free box without picking up outside odors while handling or traveling to your hunting destination.

Many Uses

Besides removing odors from your hunting clothes and gear, the ScentMaster box is great for removing odors from pet blankets and pillows, work clothes and other items that you may not want to run through your washer and dryer.

Removes Foreign Odors

The continuous re-circulation of 130 degree air through the box and your clothing excites scent molecules so they release from the fibers of your clothing. The powerful motor circulates the heated air at rate of 110 cubic feet per minute through two activated carbon filters. The activated carbon filters literally trap the scent molecules removing odors from your clothing and gear.

Extend Clothing Life And Reduce Utility Bills

Reducing the number of times that you wash and dry your expensive camo hunting clothes reduces fading and can greatly extend its life. You can also save on utility bills by reducing the number of times that you have to wash and dry your clothes to remove odors.

Great Storage Container

The ScentMaster is great for storing your clothes once it has been through a drying and scent removal cycle.
